Information on Cookies and Similar Technologies

When you visit bridgemediators.sk without signing in, the website does not use cookies or similar technologies to store information in your browser. It does not use analytics tools, advertising pixels or remarketing.

For the purposes of this document, Act No. 452/2021 Coll. on Electronic Communications, as amended (the "Electronic Communications Act"), and Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation) (the "GDPR"), apply.

1 Responsibility for the website

Bridgemediators s. r. o., Einsteinova 3998/33, 851 01 Bratislava – Petržalka district, company identification number (IČO) 57 898 707, Commercial Register of Bratislava III Municipal Court, Section Sro, File No. 204125/B. Contact: info@bridgemediators.sk, 0948 470 268.

2 Information stored in the browser

Cookies are small files that a website can store in your browser. The public pages, including the contact form, do not store or read cookies. The page address, for example /en/, determines the language; browser storage is not used to remember it.

WordPress uses technical cookies when administrators sign in to manage the website. These cookies are not used during ordinary visits to public pages.

3 Contact form and protection against misuse

A message submitted through the contact form is sent to the company's work email inbox. Its content is not stored in the website database or server logs. The "I am not a robot" check runs on the website without using an external service or storing data in the browser. To prevent reuse, the server retains a technical fingerprint of the completed check for up to one hour. It contains neither the IP address nor the message content.

To prevent spam, the server uses a derived identifier of the IP address (a hash). It is used for up to ten minutes, is normally deleted within 24 hours and may remain in a backup for up to 14 days. It is a server-side record. The legal basis is the company's legitimate interest in protecting the form against misuse under Article 6(1)(f) GDPR.

4 Hosting and external services

Websupport, s. r. o., registered office: Karadžičova 7608/12, 821 08 Bratislava – Ružinov, Slovakia, company ID: 36 421 928, provides hosting and work email. Server logs may include your IP address, visit time, the page visited and browser information. They are used to keep the website secure and troubleshoot issues and are available for up to 14 days. They are stored on the server rather than in your browser.

Fonts and images are loaded from the website itself. The website does not load embedded third-party content. For example, Google Maps opens only if you click the link next to the map image. If you follow a link to an external service, its provider may use its own cookies or process your data under its own policies.

5 Consent and personal data protection

Under Section 109(8) of the Electronic Communications Act, storing information on your device or accessing information stored on it generally requires demonstrable consent. Exceptions apply to technical operations strictly necessary to provide a service you expressly request or used solely to transmit or facilitate the transmission of a message over a network. The website does not use technologies that require your consent during an ordinary visit, so no cookie settings banner is displayed.

Personal data processed in connection with the website is subject to the GDPR and to Act No. 18/2018 Coll. on Personal Data Protection and on Amendments and Supplements to Certain Acts, as amended (the "Personal Data Protection Act") to the extent specified in Section 3(2) of that Act. See the Privacy Notice for details about contact form data, server logs and your rights. For questions, email info@bridgemediators.sk.
